**Installing the Shurley Online Services Portal on your Android Tablet**

You may access the **Shurley Online Services Portal** via a free app download.

If you are using an Android device, you must visit the **Google Play Store** in order to download the free app.

**You must have a Google Account to download this free app.**

Once you are in the Google Play Store, type **Shurley Portal** into the search bar.

https://play.google.com/store

+You   Search   Images   Maps   **Play**   YouTube   News   Gmail   Drive   Calendar   More ▾

Google play | Shurley Portal | 🔍

📥 Store

The app will appear in the **Apps** section of the Play Store.

Click on the **Shurley Portal** icon.

Next, you are taken to the app description page. Please review the information on this page and verify that your device has sufficient storage and that you are running a compatible version of Android.
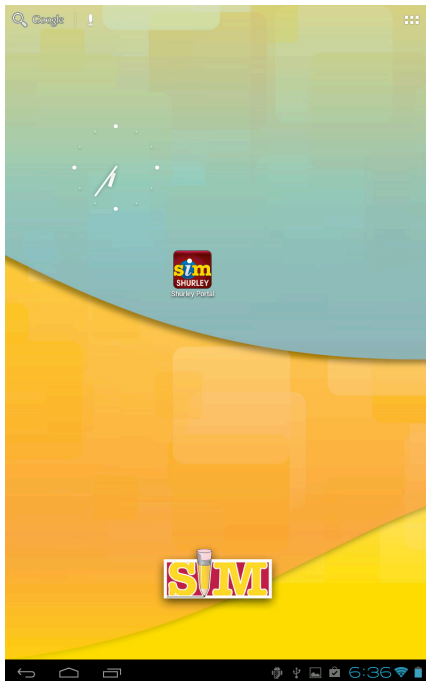

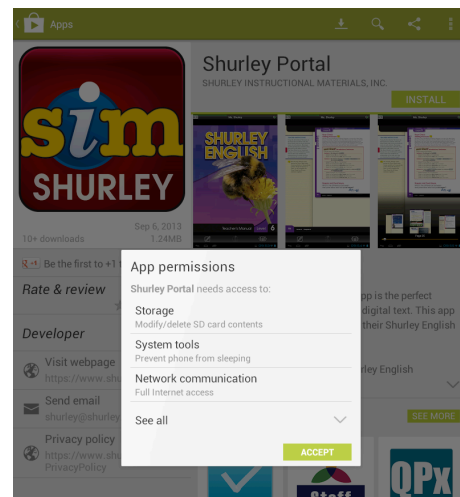

Click **Install**.

Once again, you must have a Google Account to download this free app. If you have not already done so, sign in to your Google Account.

The app must have permissions.

Click **Accept**.

The app will now download to your device.

Depending on your tablet settings, the icon should automatically appear on your screen.

Click the **Shurley Portal** icon.

If you are a teacher, **login** using your **Shurley Online Services User E-mail and Password.** This is the same e-mail address and password you use when on your desktop or laptop computer.
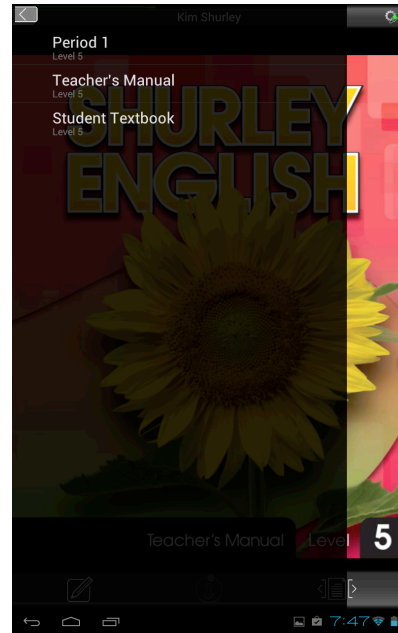

If you are a **student**, enter your six-digit access code. Remember, this access code is case sensitive.

We highly suggest you click the **Remember ID** box for quick login access.

If you are a **teacher**, the teaching materials allocated to you are listed in the menu, along with any established classrooms you have created.

If you are a **student**, you now have access to your textbook.

For a complete guide on how to best utilize your digital materials on an Android device, please visit the **Support** tile within Shurley Online Services.
